

Carclin

Your partner in car wash, truck wash and
tank cleaning

Part of: **synerlogic**

**“Carclin’s industrial
cleaning products for cars,
trucks and tanks meet the
highest requirements of
quality and safety.”**

“On behalf of Synerlogic, I am proud to present our Carclin product line: a wide range of innovative industrial cleaning products for car wash, truck wash and tank cleaning. We supply throughout Europe, to specialized dealers and end users. (business-to-business).

Because we have our own laboratory, R&D, production and distribution, we know exactly what does and does not work in this market, and what our customers need.

Our products and processes comply with legal requirements such as the Seveso and BRZO (Decree on major accident hazards) standards. This is your guarantee that we handle chemicals safely and responsibly. We are happy to go the extra mile, for example by advising you and making things more sustainable by returning and reusing packaging (free service within the Netherlands).

We are happy to build a long-term relationship with you in which we fully assist you with all your questions about industrial cleaning.”

Andre Kwakman

Managing Director Synerlogic

Carclin's Own Product Range

Whether it is cars, trucks or tanks, there are a lot of contaminants to deal with. Therefore we offer a wide range of products to help you battle them.

Our varied range includes both versatile and special cleaners. Each product has specific properties, responding to customer requirements such as foaming capacity or the absence of substances such as phosphate, EDTA, etc.

With our own production facility, laboratory and R&D department, we have vast knowledge of effective cleaning and we respond quickly to demands from the market.

If you have any questions about industrial cleaning or are looking for specific applications, we are happy to assist you.

"We do not just make and supply high-quality industrial cleaning products. We are also happy to advise, answer questions and help you to achieve the desired result together".

Quality & Safety

Quality and safety have been essential to us for more than a century.

With all the knowledge we have built up in various industries - food, feed, chemicals and cleaning - we know better than any other company how to approach this and advise you.

- Information and advice for end-users; labels with instructions for use, easy to read can codes and online availability of all product information such as safety data sheets.
- Meeting Seveso and BRZO (Decree on major accident hazards) standards; your guarantee that we handle chemicals safely and responsibly.
- Maximum score on the Responsible Care Barometer of the VHCP (Association of Traders in Chemical Products).
- Quality and safety is in our DNA; our colleagues put their heart and soul into the very best industrial cleaning products.

That's why you should choose Carclin

- Own range of highly concentrated products with high cleaning power
- Personal advice based on product, cleaning and safety expertise
- In-house production, logistics, laboratory and R&D
- Proven safety and quality through various certifications
- 115+ years of experience in the food and detergent industry

**“We are happy to build a
long-term relationship with
you in which we fully assist
you in all your questions
about industrial cleaning.”**

Pre-cleaners

A good industrial pre-cleaner effortlessly loosens stubborn road grime and oil and exhaust fume deposits from cars and trucks. Carclin also offers specialised pre-cleaners that effectively remove insect residues, give off an extra fresh scent or are specifically appropriate for heavy vehicles.

Carclin Premax

is a highly concentrated, alkaline and phosphate-free cleaning agent that delivers strong general performance as a powerful car and truck cleaner.

Carclin Premax Multi

is a highly concentrated alkaline cleaner for cars and trucks that does excellent work as an effective pre-cleaner and rim cleaner.

Carclin Premax MultiPlus

is a strongly concentrated and widely applicable alkaline pre-cleaner that efficiently removes contaminations caused by carbon, exhaust fumes, oil, and grease from trucks.

Carclin Premax Extreme

is a very strong, highly concentrated, highly foaming, and perfumed pre-cleaner for truck cleaning.

Carclin Premax Insect

is a highly concentrated, highly foaming, phosphate-free, alkaline precleaning agent for cars and trucks that has been specifically developed for removing stubborn insect remains.

Shampoos

We have highly concentrated shampoos that are extra economical to use, high-foaming shampoos, powdered shampoos and shampoos specifically intended for truck cleaning, for example. Some car and truck shampoos are particularly appropriate for manual cleaning, others for cleaning in the car wash.

Carclin Shampoo

is a lightly foaming, alkaline shampoo that is very economic in use and suitable for removing static dirt and soot from trucks.

Carclin Shampoo Acid

is a highly concentrated shampoo on a basis of phosphoric acid, for an especially thorough cleaning of all vehicles in high-pressure boxes or automated car washes.

Carclin Shampoo Multi

is a widely applicable, concentrated, and strongly alkaline foam cleaner for removing traffic and road dirt from cars and trucks.

Carclin Shampoo MultiPlus

is a concentrated and extra powerful alkaline shampoo for trucks and other industrial vehicles that are heavily polluted.

Carclin Shampoo Super Fresh

is a concentrated, highly foaming alkaline shampoo without phosphates for cleaning metals, plastic, and glass in automatic wash installations.

Carclin Shampoo Pro

is a powerful shampoo for truck cleaning: more concentrated, increased foaming, and powerfully degreasing.

BESTSELLER

Carclin Shampoo ProPlus

is a highly foaming and stronger alkaline shampoo for professional cleaning of cars and trucks.

Carclin Shampoo Poly Fresh

is a concentrated liquid cleaning agent with a lot of degreasing power, specifically suitable for removing copolymers and external cleaning of industrial vehicles.

Carclin Shampoo Fresh

is a strong alkaline and perfumed foam cleaner with which you can easily remove road dirt from cars and trucks.

Carclin Shampoo & Wax

is a highly foaming and pleasantly smelling car shampoo with wax for use in high-pressure or low-pressure equipment.

Carclin Car Shampoo

is a safe and pH-neutral alkaline car shampoo for mechanical or manual cleaning of cars.

Carclin Foam Multi

is a concentrated alkaline industrial cleaner for cars in carwashes with brushing machines.

Carclin Foam MultiPlus

is a highly foaming, phosphate-free alkaline cleaning agent with a neutralising effect for cars, trucks, and other heavy vehicles.

Carclin Foam Pro

is a strongly concentrated, highly foaming alkaline shampoo for effective cleaning of, particularly, cars.

Carclin Foam Gel

is a highly concentrated and easy-to-rinse foam cleaner for trucks and other heavy machinery.

Carclin Foam Apple

is a neutral and soft shampoo with excellent foaming properties and a fresh apple scent, specifically suitable for carwash machines with textile cloths and foam brushes.

Carclin Foam Fresh

is a highly concentrated, fresh smelling, and highly foaming alkaline shampoo for the thorough cleaning of cars.

Carclin Powder Multi

is an alkaline cleaning powder with extra degreasing power for the thorough cleaning of heavily polluted cars and industrial vehicles.

Carclin Powder Plus

is a strongly concentrated, alkaline cleaning agent in powder form, suitable for both cars and trucks.

All product features?

Drying and preservation

Our drying and preserving agents ensure a shiny wash result in the car wash and truck wash, which remains noticeable for longer. The special wax gives a water-repellent protective layer that allows cars and trucks to dry quickly. For various applications we have highly concentrated agents that guarantee an optimal result.

Carclin Dry

is a professional and highly concentrated shining wax for the carwash that offers durable paint protection.

Carclin Polish & Dry

is a highly concentrated and water-repellent solution for fast drying in the carwash and truck wash.

Carclin Polish

is a shining and preservation wax on a polymer basis for carwash and truck wash.

Carclin Dry & Finish

is a water-repellent drying assistant for the carwash with a fast action and gleaming result.

Degreasers

Removing traffic dirt, oil and grease effectively from cars, trucks and other means of transport, can be done with our range of degreasers. Engine parts, floors and complete vehicles can be degreased quickly and effectively with the right degreasers. Carclin degreasers come in different variants, depending on your requirements for the product or the result.

Carclin Degreaser

is a concentrated, alkaline all-purpose cleaner and effective degreaser on water basis, which is suitable for quickly and safely removing road dirt from cars and truck.

Carclin Degreaser Multi

is a highly concentrated and low-foaming degreaser on water basis, which you can use to quickly and safely remove soot, dirt, and grease from both trucks and cars.

Carclin Degreaser Pro

is a powerful, liquid degreaser without phosphates, especially suitable for the chemical precleaning and high-pressure cleaning of trucks, lorries, and motorbikes.

Carclin Heavy Duty Degreaser

is a very powerful and concentrated industrial cleaning agent for trucks and other heavy vehicles that effectively removes grease, oil, and paraffin wax.

Carclin Degreaser Fresh

is a liquid and water-soluble alkaline degreaser that allows you to easily clean road dirt as well as oil and grease from trucks.

Acid cleaners

Carclin's acidic cleaners do their work powerfully and thoroughly. These acidic cleaners are available in different variants. An acid for the removal of flash rust, but also a strong acid for a whole new surface look and everything in between. For each product you will find the properties for which it is specifically appropriate.

Carclin Alu Pro

is a strong, highly concentrated acidic cleaning agent on a basis of phosphoric acid. It is especially intended for cleaning and descaling cars and industrial vehicles and machinery.

Carclin Alu Extreme

is a strong acidic and degreasing cleaning agent on a basis of hydrofluoric acid, specifically suitable for trucks and other industrial vehicles.

BESTSELLER

Carclin Alu Bright

is a powerful, acidic cleaning agent on a basis of ammoniumbifluoride that thoroughly cleans all types of rims and gives them an entirely new look.

location on the A12 in
Duiven.**

Speciality cleaners

We have specialised stain removers, glass cleaners, cleaning products for plastic and rubber, and products to remove odours from the interior. We also have different types of hand soap in our range. Are you looking for something else? Please let us know. For every cleaning problem we have a fitting solution, or we make it fit!

Carclin Cement Remover

is a foaming acidic cleaning agent for removing cement remnants, fertiliser, and rust deposits from trucks and other industrial vehicles.

Carclin Cockpit

is a powerful cleaning agent for the dashboard and other plastic and rubber parts in the car interior..

Carclin Interior

is a powerful liquid cleaner for removing stains from the upholstery of cars, trucks, delivery vans, and lorries.

Carclin Fabric

is a multifunctional and user-ready stain remover for hard and soft surfaces in cars and trucks.

Carclin Odour Fresh

is a product that attacks unpleasant smells and is especially suitable for the transport sector..

Carclin Odour Clean

is a concentrated, liquid interior cleaner with a lot of degreasing power, specifically for fresh cleaning of the interior of cars and trucks.

Carclin Screen Clean

is a glass and interior cleaner on alcohol basis that guarantees a streak-free result on all types of smooth surfaces.

Carclin Rubber & Plastic

is a powerful cleaning agent on a basis of wax and solvents, suitable for intense cleaning of plastic and rubber parts of cars and trucks.

Carclin Handcare Scrub

is a powerful hand soap with a fresh citrus scent for heavy industrial dirt.

Carclin Handcare Soft

is a mild and unperfumed hand soap that prevents dry hands.

Tank cleaning

An extensive package of tank cleaning agents appropriate for internal and external cleaning of tank lorries. Our specialist product range is geared towards solving any cleaning problems that occur in this industry.

Carclin Tank Alkaline

is a water-based, alkaline cleaning product for tanks containing food or chemicals. This tank cleaner effectively combats stubborn dirt.

Carclin Tank Acid

is a phosphoric acid-based cleaning product. For effective removal of grease, limescale, building materials, discolouration and rust from tanks.

Carclin Tank Multisolve

is a widely applicable tank cleaning product for the removal of tar, resin and various types of fats and oils. The product is also suitable for cleaning trucks.

Carclin Tank Polysolve

is an alkaline detergent for the removal of latex, resin, polyols and dried-on polymer dispersions from tanks.

Carclin Tank Resin

is a tank cleaning agent specially designed to remove all types of resin and paint quickly and effectively.

Carclin Tank Biodegreaser

is a short-term emulsion degreasing product that effectively dissolves fats and oils. Suitable for heavy dirt in tankers, trucks and passenger cars.

Carclin Tank Isosolve

is a highly alkaline and specialist isocyanate-based coating remover.
